

Product Key Features & Fee Card

overview

Alltrust has developed the range of services available within the Alltrust SIPP to accommodate The Oasis option. This option has been designed to offer Advisers and their clients a simple retirement benefits solution where the full range of investment options afforded under the Alltrust SIPP are not required.

Oasis may be suitable for clients who:

- Are looking at the possibility of more investment flexibility in the long term, but without the need to have all of those options available at commencement;
- Are looking for a long-term lower cost Self Invested Pension that can offer access to Discretionary Fund Managers or Fund/Share Platforms.

The Alltrust SIPP Key Features should be read in conjunction with this document to provide a full overview of how the Alltrust SIPP operates.

the investments

The Oasis option is designed around a very simple investment structure:

- Scheme Bank Account, plus
- Discretionary Fund Management (DFM), or Fund/Shares Platform investments. Multiples are allowed

Alltrust will operate a 'panel' approach to the DFM and Platforms to ensure that they are all compatible with the desire to ensure that administration of the SIPP is straightforward and simple.

In keeping with the usual Alltrust philosophy, however, any adviser wishing to use alternative DFMs or Platforms can request this and we will determine whether they can be added.

Contributions and Transfers from other Registered Pension Schemes can, of course, be made as normal to the SIPP.

the clients

Alltrust firmly believes in the importance of clients obtaining professional financial advice before establishing a SIPP. As a consequence, the Oasis option will only be available through Financial Advisers.

the fees

The fee structure of Oasis has been set to reflect that the day to day administration of the arrangement will not be as arduous or involved as we would generally expect a full SIPP to require.

Alltrust does not obtain any additional income, commissions or interest payments from any of the providers associated with the Alltrust SIPP or the Oasis option.

the future

In time, when the adviser or the client perceives that adequate funds have been accumulated within the Oasis framework it will be possible to switch to the Alltrust SIPP so that the full range of permitted investments can be accessed. There is no cost to the switch, although the normal Alltrust SIPP fees (including a pro-rata higher annual fee) will then apply from that stage.

Alternatively, we will be delighted to continue to offer the Oasis option to the client to retirement and beyond. The full range of retirement options is available within Oasis.

Important Note: The Oasis Option is available purely for the investments stated. In the event of a change of investment strategy, which shall include (but not be limited to) a change of asset selection, within a period of two (2) years from inception then the full fees from inception as detailed in the Alltrust SIPP Fee Card will immediately fall due and payable.
